

ASTON MARTIN DB7 i6 JUST 17,000 MILES!

£24,995

This Aston Martin DB7 was first registered in April 1996 to a Mr Modi from London. Supplied new via Stratstone London in Brecon Black with special order Warm Charcoal interior along with 'Speedline' Magnesium wheels, CD Autochanger and over mats. Mr Modi had the car maintained exclusively by Stratstone London with regular visits for servicing and maintenance until he parted company with it in 2009 when it moved to Banff under the ownership of Mr Russell. The DB7 was looked after by Martins Aston Services from Glasgow and several times by Chiltern Aston Centre who fitted the 'Driving Dynamics' body kit and drilled pedals. Russel kept the car until 2012 when it passed to a Mr Sankey from Devizes who continued its maintenance with Chiltern Aston Centre before selling it to the current owner in 2020. The car has since been maintained by Desmond J Smail Ltd with its latest service having just been completed.

This extremely low mileage, (just 17,000 miles from new) and exceptionally well-maintained Aston Martin DB7 is in superb condition, with no fewer than 20 Aston martin dealer/specialist stamps in the service book! This DB7 comes with the following factory options/accessories, along with a comprehensive history file that contains all related service and maintenance invoices and many MOT's.

Special order Warm Charcoal single colour interior, AML 147 Magnesium Wheels, Driving Dynamics Body Styling, Automatic gearbox, Rear Park Distance Control, Heated front screen, Heated Front Seats, CD autochanger, Stainless Steel mesh grille, Drilled Pedal Covers.
